Learn the fundamentals of Fine Arts

Certificate in Fine Arts

This programme is delivered through a range of practical projects, diverse workshops, and lectures. It focuses on a necessary range of art-related knowledge including studio-based art, photo media and moving image, and contextual arts practice. The emphasis is on practical projects and forming a deep understanding of the visual arts supported by conceptual content and knowledge. The programme also prioritises assistance with editing, selecting and formatting visual outcomes into a portfolio.

Graduates of this programme will be able to

- Understand mark-making, observational, and conceptual drawings and image making
- Explore multiple mediums and approaches to making
- Access, record and present information, critical studies and collaborative work-making related to contextual themes and portfolio design and exhibition practices
